Junyi Tex
Hall No: 5.1-A80

Junyi Tex was founded in 2014 by a female entrepreneur specialising in high-quality fabrics including cotton, polyester and blends for fashion and home textiles.

Featured product:
1. Comfort: This fabric combines the benefits of cotton and rayon, offering a

- soft, breathable feel that's comfortable for long wear, making it ideal for warmer climates.
2. Shine: Rayon gives a silk-like shine, and when blended with cotton, it enhances the fabric's natural luster, adding a touch of elegance.
 3. Moisture Absorbency: Cotton has excellent moisture-absorbing properties helping to keep the wearer dry by absorbing sweat.
 4. Breathability: The blend of these two materials provides good breathability making it suitable for daily wear without feeling stuffy.
 5. Wrinkle resistance: Compared to pure cotton, rayon fabrics typically have better wrinkle resistance, reducing the need for ironing and maintaining a smooth appearance.
 6. Eco-friendliness: Rayon is typically made from natural wood pulp, making it more eco-friendly, and when combined with cotton, it aligns with sustainable and environmentally conscious trends.
 7. Durability: The cotton fibers enhance the fabric's durability, making it more resistant to wear and extending its lifespan.
